*Depends on the station's capacity and weather conditions

Cruising range

About 1,000 km
(JC08 test mode)

Usable power

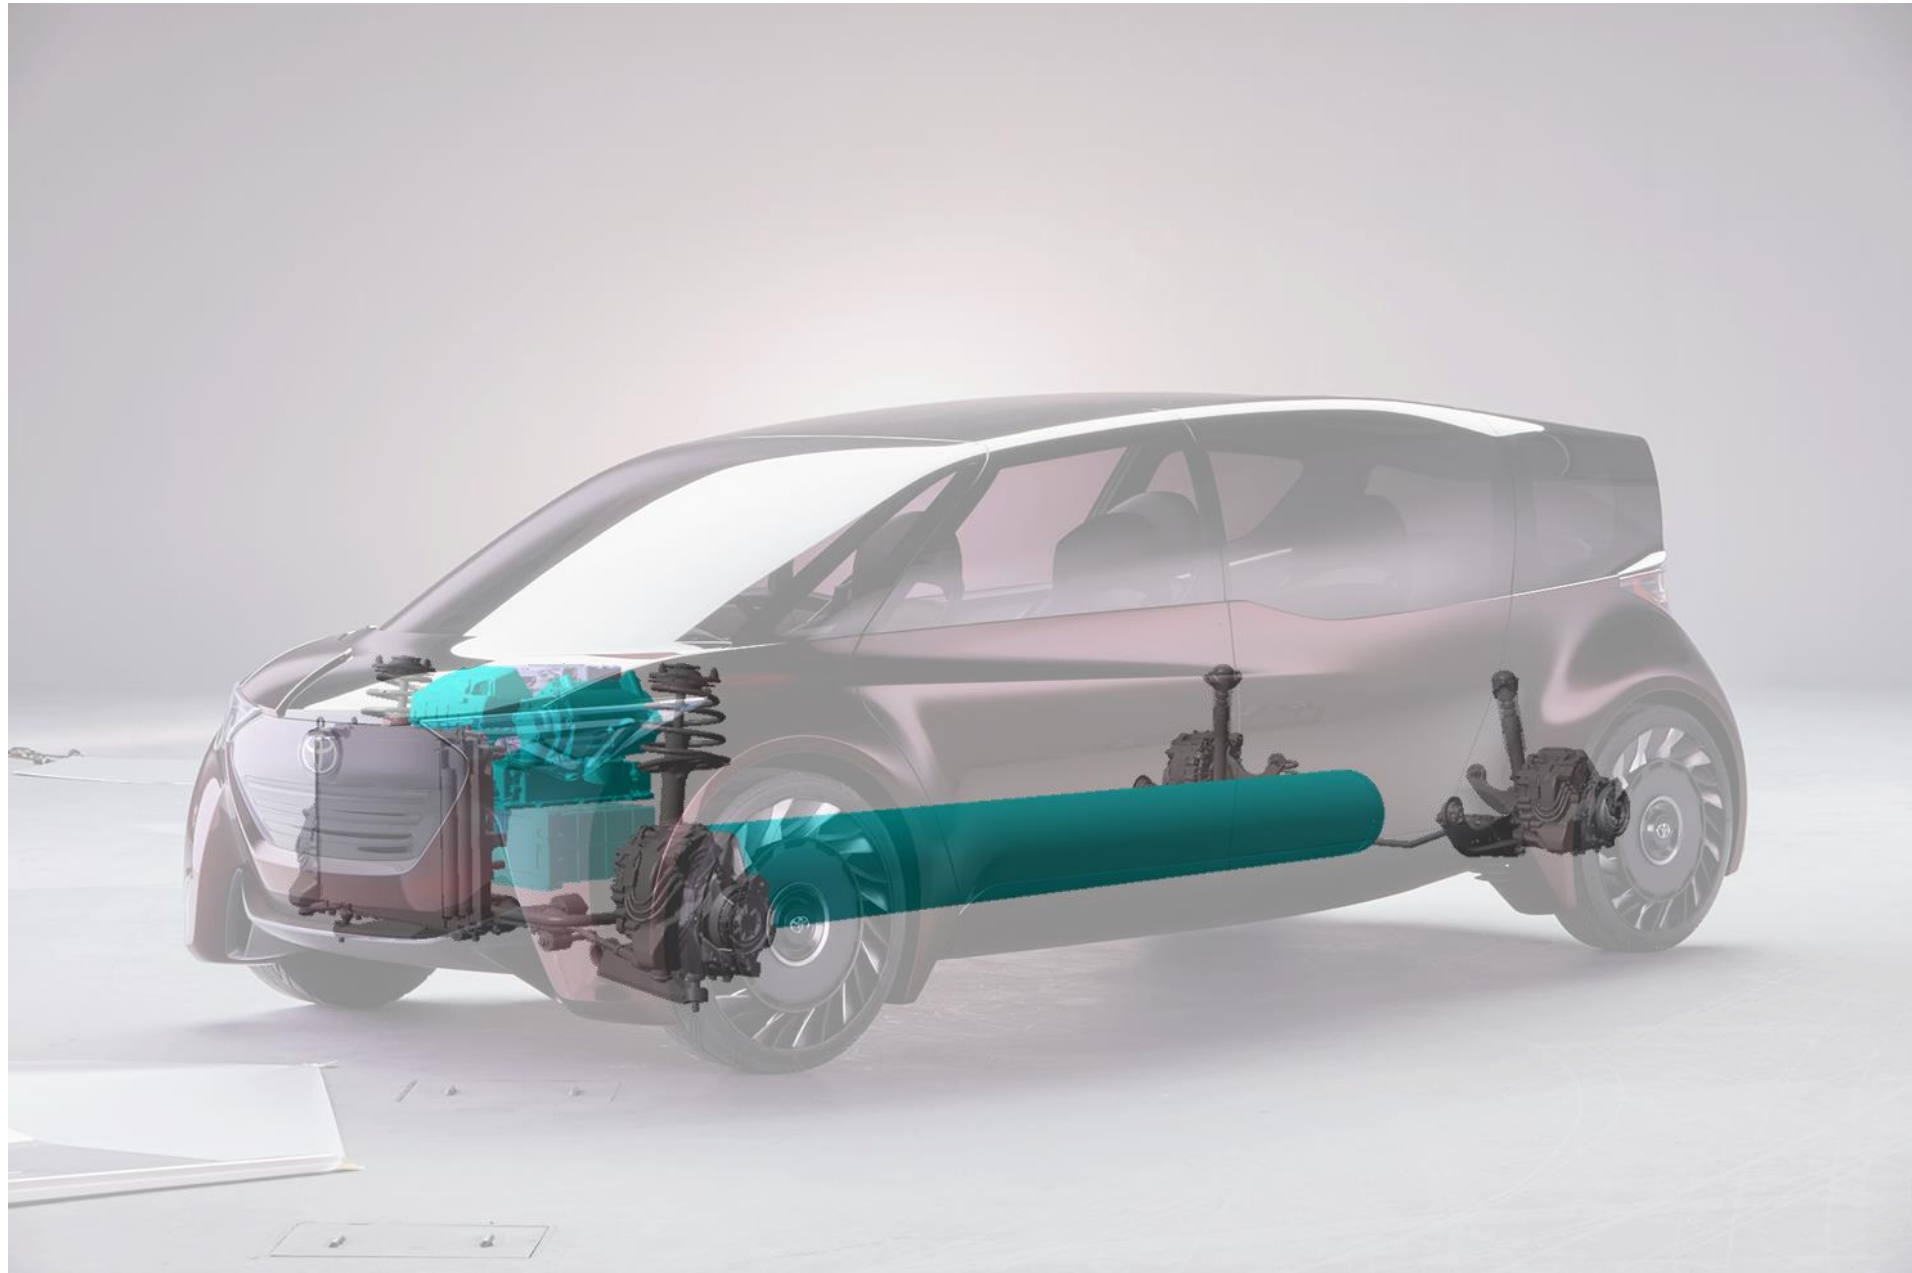

About 120 kWh

More comfort and an extended cruising range
—achieves the same performance as a gasoline vehicle

Specifications & Performance

[FC technology]

- Compact stack
- Small diameter hydrogen tank
- In-wheel motor

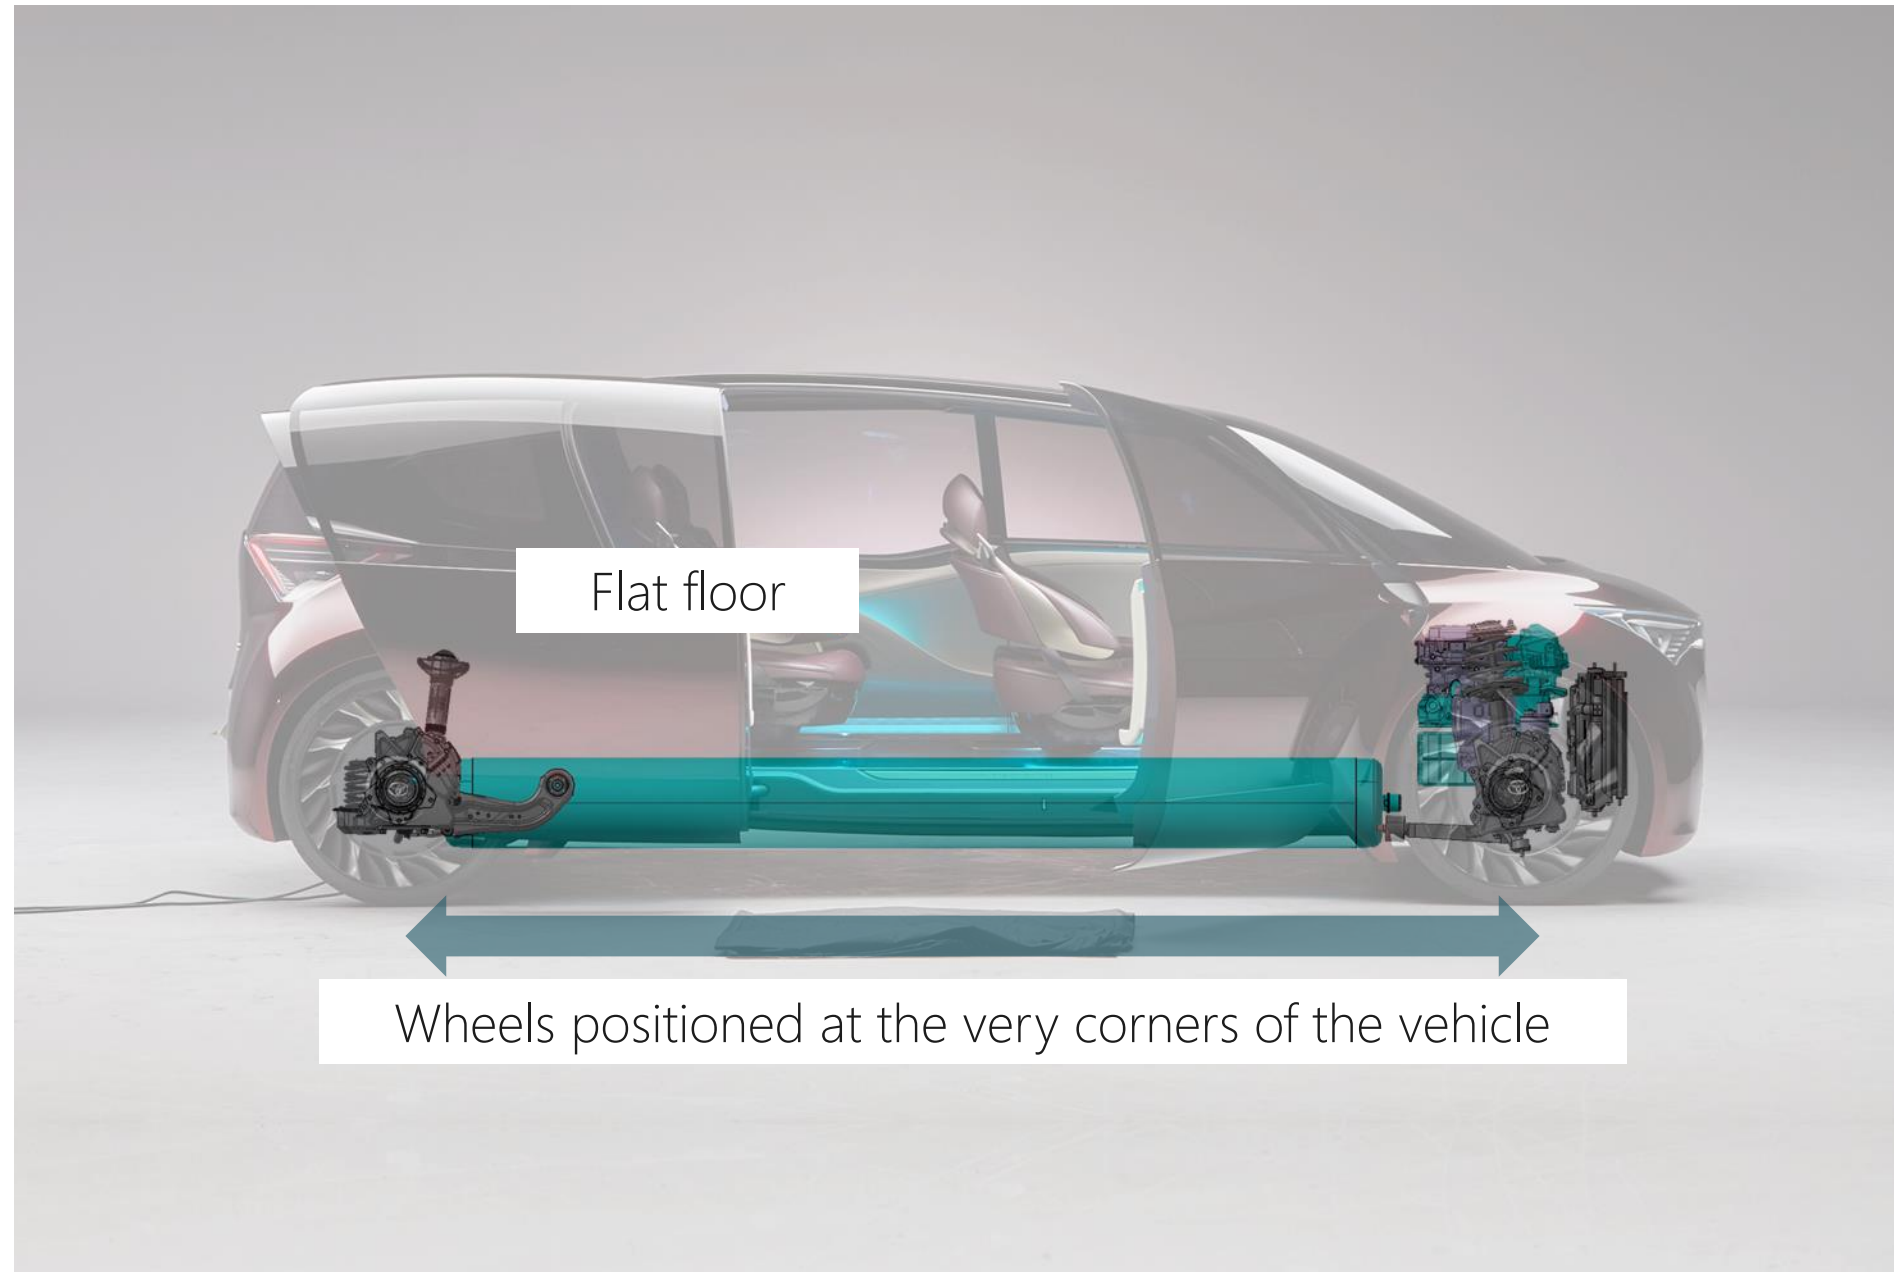

Specifications & Performance

[Fine]

A new genre that
embraces *Wakudoki*
(heart-pumping excitement)
and clear-cut proportions

[Clean]

Simple and iconic
structure

A futuristic cityscape with elevated roads and cars, overlaid with Japanese text. The scene is rendered in a blue and white color scheme, suggesting a clean, high-tech environment. The text is centered and reads "水素がクリーンな社会に変えていく".

水素がクリーンな社会に変えていく

Hydrogen will change into clean society
